Pre-set Programs and Entertainment options with Android touch-screen

- **Six pre-set programs** targeting skin health, pain relief, detoxification, weight loss, cardio health and relaxation.
- Far-infrared for detoxification (core temp increase), blood pressure and cholesterol reduction & relaxation
- Mid-infrared for weight loss, pain relief & improved circulation (passive cardio workout)
- Near-infrared predominant wavelength for cell health, complexion, wound healing & skin purification

MAGNE-SEAL ASSEMBLY [Requires no screws or clips]

Sunlighten's patented Magne-Seal™ assembly process maintains the integrity of the sauna while allowing you to easily snap together walls making it easy to set up and take down. As the sauna naturally expands and contracts during use, Magne-Seal™ adapts to prevent cracks and warping for prolonged cabinetry, while keeping the heat in and the cool air out. It is as strong and durable as clips, buckles or screws but invisible to the naked eye.
